

**WEIKE WINS “BEST ASIAN MANUFACTURER”  
IN INSIDE ASIAN GAMING’S SUPPLIER AWARDS FOR 2008**

*Inside Asian Gaming (IAG) – Supplier Awards* recently celebrated and recognized all the hard work that gaming suppliers across the region have put into making 2008 growth possible in the Asian gaming industry.

The prizes were based on reader nominations of gaming equipment products available in Asia in 2008 and on the votes of a panel of judges made up of industry professionals. The nominees were all products and companies with proven performance where it matters most – on the casino and the club floor. The declared winners have proven track records in terms of return on investment due to their ability to satisfy the demands of players and operators alike.

With seven nominees from Singapore, Taiwan, Hong Kong, China and Japan being nominated as “Best Asian Manufacturer”, Weike Gaming – as the sole manufacturer in Singapore – emerged as the winner for 2008!

Commenting on Weike’s win, IAG said, “The company has come far in the last 12 months under the leadership of its CEO, Mr. David Kinsman. With its head office in Singapore and its manufacturing base in Malaysia, the company has particularly impressed the industry with its product line of gaming machines, electronic table games, gaming management and jackpot systems in G2E Asia 2008. Now, with its recent recognition from IAG, it is looking forward to better and bigger sales in the succeeding months! Weike Gaming is tipped to sign at least one major deal in Macau in the first quarter of 2009.”

“With the exceptional quality of its game graphics, Weike enables to use a standard off-the-shelf Pentium motherboard for its systems, making the product cost-efficient without compromising its system security”.

Weike Gaming has also recently achieved confirmation of compliance with GLI-11 for its Infinity platform and its METG (Multi Player Electronic table game) machine range. The testing and certification to the GLI 11 standards was undertaken by Australia’s BMM, one of the world’s foremost testing and certification laboratories for gaming equipment.

Commenting on this latest achievement, Weike's CEO, David Kinsman said, "This award is a great acknowledgement that Weike is moving in the right direction, and an acknowledgement of the steps we have taken to move our company forward. This shows that Weike is up to the challenge of truly becoming Asia's Number 1 Asian gaming machine manufacturer. We continuously strive to improve our product range with focus on quality, service and performance, and this will further enhance our reputation in the Asian region and world markets."
